

BEGINNINGS OF THE JEDI

By Zane DeForest

PROLOGUE

The galaxy is a big place there are many people in the galaxy, some people in the galaxy have powers. The year in the galaxy is 178 BBY the infinite empire rules the Galaxy. The infinite empire is a race of aliens in the galaxy called the Rakata.

My name is Caleb I live on the small village planet called moon five. I have two best friends their names are Nicky and Nebu. Nicky is a female human, Nebu is a male Zabrak.

Nebu, Nicky and I were outside our small homes playing in the yard. As what I saw over our village was a massive pyramid. Nebu said, "What is that?" Nicky says, "I think it is the Infinite Empire." I say, "Look there are tunnels at the back of the pyramid." Nebu answers, "No those are some of the newest inventions the Infinite Empire has developed." Nicky says, "What are they Nebu." Nebu answers, "They are called hyperdrives, they allow you to travel to different planets very fast."

I did not start to feel so great and I asked my friends and said, "Do you guys feel ok?" Nebu answers, "No I don't feel good." Before Nicky could answer we started to float in the air along with many people from around the village. Nicky yells, "Help me!" We were helpless against pyramid. A large hatch door opened and we were forced in by the pyramid.

I saw two Rakata soldiers walking by us. Nicky yells, "Where are you taking us?" Nebu says to me, "Look someone is coming." We saw a person wearing a hood.

The hooded man says, you force welders.” A man who was standing near us said, “now what are we your slaves?” The hooded man answers, “No we will take you somewhere.” The hooded man takes off his hood and says. “I am the captain of this vessel and you are my guest.”

The vessel was jumping to hyperspace and before we know it we stopped and reached deep space. Nicky says, “I see eight pyramids.” I answer, “We need to make our way to a hanger and steal a ship.” Nicky says, “Let’s go.” We started to run and a Rakata soldier said, “No you don’t.” The hooded man says, “No you don’t try to leave, you are my guest’s.” Nebu says, where are you taking us?” The captain says, “Don’t worry young force welder you will be dealt with on Tython.”

The four Rakata ships landed on a tropical planet, the blast doors opened and all the now kidnap of the Infinite empire exited the ships. Nicky was frightened of the Rakata soldiers. Nicky whispers to me, “We need to run before they hurt us.” I say, “No they will kill us if we run.” Nicky replies, “Caleb we will die either way.”

The hooded man, which we know as the captain of the Rakata fleet approached the group of people. The captain yelled, “You people are free on this planet.” The Rakata scholars threw scrolls and other materials at the crowd and us. Before we knew it the Rakata’s star fleet was already gone, and with us left on this deserted planet with no food, water or our family.

THE CREATION OF THE JEDI

WRITTEN BY ZANE DEFOREST

CHAPTER 1

We were alone without our family, without shelter, without a weapon to protect ourselves. An older man that was in the crowd yelled, “Look there are scrolls. Nicky says to me, “Look lets go over there.” We follow Nicky over to the old man. Nicky says to the old man “What is there?” The old man answers, “Scrolls, brick, and some tech.” I say to Nebu, “Why did the Rakata give us this?” Nebu answers, “I have no clue.” Nicky says to the old man, “What is your name?” The old man says, “My name is Rick.”

Nebu took the scrolls with us to a shady area where there was a couple of rocks to sit down on. Nebu opens the scrolls he read it aloud to us, “This scroll says here that, people in the galaxy have abilities to do great things.” Nicky says “What great things?” Nebu says, “It says that anyone that was attracted to a pull to the great pyramid space ship, can build with our hands, attract objects towards us, and bring balance and corruption to the galaxy.”

Many people from around where the Infinite Empire threw us out at circled around us. They said, “With the stone and the powers we possess we can make a shelter.” Nebu says, “What if it isn’t even real, what if it is a trap?” I say, “Then let’s find out.” Nebu took out his hand and put in front of him, he focused as hard as he could on the stone. The stone began to lift. The crowd was amazed, the rest of the crowd began to make a large temple on the mountain. The temple had a ship landing platform hanging off the side of the mountain. After five minutes, all our bricks were gone and we have created a new home, a temple.

Nicky says, “Wow it is amazing!” Nebu says, “Let’s go inside.” The crowd of people were amazed of the powers we have. We walked up the stone stairs and into the temple. Inside our temple there was a large room, we made a bookshelf so we could store our scrolls. There were many rooms for private quarters. The temple was huge was one landing platform.

Nebu approached me, he seemed happy. Nebu said, “Caleb this is very nice, I believe we should make you are Grand Master.” I reply. What do you mean Grand Master?” Nebu answered, “It says here in the scrolls that this is an order, and that the order should have a Grand Master.” I answer, “Why me?” Nicky came over and joined our conversation. Nicky says, “Because you were wise enough to tell us to follow the scrolls instructions.” I say, “Will before that all happens I need to learn more about the powers we possess.”

CHAPTER 2

I was sitting in the large room where studied the scrolls. Nicky came towards me. I sat down the scroll, Nicky seemed confused. I say, "What is it Nicky?" Nicky replies, "What do the scrolls say?" I say, "It says that the powers we possess is called the Ashlea." A man came to me. The man said, "Caleb there are creatures outside our temple and they are attacking." I answer, "I will be out there in a minute." Nicky says, "I guess we will have this talk later."

I walk down the steps of our temple. There were three tall, blue colored beasts that look like mini T-rexes. I approached the beasts. They came running towards me. I pushed out my hand, I used my focus and all the skills I knew from the scrolls and it threw the beast back. The people from the temple were amazed. The beast came back again, but this time they were mad. One of the beasts were very angrier. Nicky came with a furious face. She jumped down from the temple. The beast jumped on me, I could not move. I was helpless, I was trapped. Nicky put her hand in front of her. She pushed the beasts off me. She yelled, "Come on Caleb." I ran to the temple as fast as I could. We made our way up the stairs and in the temple.

Nebu comes to us. He said, "Are you two ok?" I answer, "Yes thanks to Nicky." Nebu says, "Will I found something in the scrolls." I say, "What?" Nebu replies, "Look that is a kyber crystal." I say, "What do the crystals do?" Nebu answers, "They can make a laser sharp blade." Nicky was in question. Nicky says, "Can this be a weapon?" Nebu answers, "It can be." I say, "Then we need to get some kyber." A woman came to us from her quarters. The woman said, "Grand Master we have located some kyber." I say, "Where?" The woman answers, "The scrolls say in the west side of this planet." I say, "How do we get there then?" Nicky looks like she has an idea. In fact, she does have an idea. Nicky says, "We can make a ship on our

landing platform.” I answer, “Then we need to get to work fast on that ship before these beasts come back and try to get us again.”

CHAPTER 3

Nicky and a Togrota man are on the temple ship landing platform. The man says, "Hello My name is Cham." I answer, "Hello Cham." Cham says, "I am helping Nicky here create a ship." I answer, "Great work." Nicky yells, "Caleb I need you to use the force and push the part in place we cannot reach it." I say in a teaching manor, "Why can't you?" Nicky says in shock, "Will, Ugh I can't. Is hard to." I put my hand out in the air. I say, "Nicky trust yourself and focus everything on the objective." Nicky took my evidive, she put her hand in front of her and will she did it. Nicky yells in excitement, "Yes I did it, I can't believe I really did it!" I said, "I always knew you could do it."

Nebu I yell. Nebu comes out of his quarters. Nebu says, "What is it Caleb?" I answer, "The ship Nicky and Cham are working on is almost done." Nebu replies, "Great!" I say, "Anything new from the scrolls?" Nebu says, "Yes but I don't understand it." I say in question, "What is it?" Nebu walks back in his quarters. I walk in. Nebu hands me the scroll. Nebu says, these things here are the supplies we need to create one. I read the text out of the scroll, "This is a storage of hallways, hallways of information also your personal library. It will help others correct the mistakes of those fallen." I say, "I don't get it?" Nicky knocks on the door. She yells, "Time to go guys we got some kyber to go chase." Nebu opens the door, Nebu says, "Dang time to go."

Nicky says, "Will you two we have a plan for you." I answer, "What is the plan?" Nicky replies, "The two of you are going to fly to West. Then the creatures will attack I am Shure. You need to run and crab the kyber in the cave enough for at least ten people and make your way back to the ship." I say, "Easy enough." Nebu says, "I am ready."

As we approach the ship we see the creatures attacking again. Nicky says, “Go we will stay inside until you return back with that kyber.” I say, “What about the temple?” Nebu says, “Come on the more time we waste here the more danger our friends will be in.” Nicky says, “Go me and Cham will warn the others.” Nebu grabbed my hand and pulled me into the ship. I pressed the start, Nebu began to move the controls. We were soon in the air. I yell from the top of my lungs, “Nicky it really works!!” Nicky gave me a thumb up and Nebu pulled the throttle.

CHAPTER 4

We flew through the tropical lands, seeing all kinds of those beasts that were at the temple. Palm trees, sand, water, grass it is everywhere. The land we are on here is beautiful. Nebu yells not in a mean tone, but so I can hear over the ship, "Caleb you need to look for a mountain that is where the kyber should be." I answer, "There!" Nebu flies more to the west so we can reach it. Nebu says, "Were going for a landing." Nebu Lands the ship. There are three caves on the mountain. I say to Nebu, "Look there on the left there is a blue crystal. In the middle cave, there is no crystal. On the Right cave, there is a red crystal." Nebu says, "What does it mean?" I say, "Will I don't know, you're the smart one here."

Nebu I yell, "We need to go to the blue cave I think I understand now." Nebu says I shock, "What does it all mean?" I say, "the blue it stands for good, I have no clue what the one in the middle is. The red it stands for evil, just like the infinite empire." Nebu is in shock. Nebu says, "Ugh, ugh, ugh." I say, "Spit it out Nebu." Nebu replies, "Ugh Caleb we have a problem." I look above me, there are three Infinite empire warships. I see two troop transports. I say, "We need to get the crystals fast Nebu." Nebu shakes his head in agreement.

Nebu and I run into the cave with the blue crystal as fast as we could. Nebu yells take a left. I say, "Stop!" Nebu says, "What?" I say here we are." Nebu says, "I have the bags let's start filling them up." I take the bag I grab a handful of crystals and more and more. We run out of the cave. Nebu says, "Put those in the back of the speeder ship. I throw the crystal in the ship. I hop in, Nebu jumps in the ship. We began to start the engine. I say, "We need to get back fast and make our weapons." Nebu answers, "Caleb the infinite empire will show no mercy to our friends." I say, "I know." Nebu replies, "Now if we are going to get back in time to help our friends

we need to.” I interrupt him. I say, “Use the force.” Nebu replies, “That is exactly what we need to do.”

CHAPTER 5

Flames, smoke filled the air of Tython. The Rakata had their evil war ships over our brand-new temple. The soldiers swarming our home with heavy blasters set to kill. I yell to Nebu, "Hand me that scroll." Nebu flying the ship back to the temple and handing me the scroll. I open it, I take a kyber crystal and the metal. I focus as the force is all there is surrounding me. The crystal as a living thing comes alive in the metal sparking a blue flame from the metal! I say in excitement, "Nebu it really works I got it." Nebu looks happy, "Yes, excellent work Caleb make more of those fast." I did what Nebu said to do I made more swords.

I handed Nebu his laser sword. Nebu says, "Were landing." I say, "Good." We run towards the temple and there are the rakata soldiers. We turn on our laser swords and we slice the soldiers in half. We run into the temple fast with our new weapons lit. There are no soldiers anywhere. I say, "This is odd." Nebu says there probably at their fleets." I yell, "Is anyone here, hello." Nicky ran out of supply room. Nicky hugged us. Nicky says, "I was worried for you." Nebu says, "We were worried for you and everyone else to." I say, "Speaking of everyone where are they Nicky?" Nicky says, "Cham is dead." I say, "What!" Nicky begins to cry. Everyone came out of their rooms where they were hiding.

Nicky says, "Come on I need to show you this." I say, "What do you need to show us." Nicky replies, "The Rakata fleet." We follow Nicky to the command room. A man presses the button on the table. A chart comes up it is the Infinite empires fleet. Nicky says now with these swords and new ships I have the men building we can attack them and get them off our world. Nebu says, "We need to steel guns for the ships though." I say, "I know just how to do it to." "How?" Nebu barks. Nicky says in question, "Yeah how Caleb?" I say, "We steel a tank when they come down and when the transport picks them up we slip into their ship and we have a strike team to hijack the ship and steel all the weapons we can get." Nebu says,

“May I remind you that it is not the way of the Jedia.” I say, “We need to break some rules to win a battle for our lives.” Nicky says, “Agreed.”

CHAPTER 6

As a small strike team made up of Myself, Nicky, Kelly and Boz make our way to the jungle. Boz says, "Get down there they come." We hide in the bushes. There came three soldiers and tank of the Rakatas tank. The Rakatas soldiers were carrying heavy blasters in high armor. Kelly jumped out of the tree and activated her laser sword. The soldier shot her in an instant. "No!" I yell. I jump out of the bushes and slice the soldier that killed Kelly. I yell, "Attack." Nicky and Boz jump out of the shadows and activate the laser swords.

We run out of the shadows and attack the Rakata troops. The troops say, "Set to kill." The tanks pilot opens the door. The pilot yells in fear, "Kill the bait." Nicky uses the force and pushes the pilot out of the tank. Boz slices the other soldier into two. I walk up to the pilot. I say with a mean tone, "Call a transport to pick the tank up." The frightened pilot says in fear, "Ugh, yes." Nicky says, "Good work."

I jump into the tank. I say, "Everyone in." Nicky and Boz hop inside the tank. Nicky says, "How far out from the temple are we?" I answer, "Five minutes." Boz says, "Look." We look above there are four Rakata star-fighters heading for the temple with a transport ship. I say, "That is no good."

The transport landed at the temple. We made our way to the temple in time to sneak aboard. The commander walked down and says, "What you are not my pilot." Boz jumps out and kicks the commander. "Good work," I say. We continued to drive into the transport and then we took off. Nicky says, "Well there is no going back now." I reply, "No, no there isn't."

CHAPTER 7

We were on board the transport. I thought to myself, why would the Infinite empire kidnap us and then come to kill us? Nicky says, "Were here." I looked out of the small circular window. There I saw three pyramids. The transport we boarded was docking with the pyramid ship. I say, "We are about to land be ready to set off the fireworks off." Nicky and Boz shake their heads in agreement. Clank the ship landed with the pyramid command ship. Nicky says, "Be ready everyone for anything."

"Boz", I say. Boz replies, "What?" I answer, "Stay in the tank and drive off and fire when I say." Boz nods his head. We walk out of the tank. Straight ahead was the door to enter the pyramid. As we walk forward a Rakata solider jumps out of the shadows. The solider yells, "You scum." He raises his blaster and fires. The blast missed us. I say, "You don't have to do this." The solider didn't reply. The solider then fires again. I ducked, then activated my laser sword. I thought not a laser sword but a lightsaber. I then charged at the solider. I sliced the blaster into pieces. I say, "Don't you Rakata mess with me or my friends." The solider ran from me to the tank. Boz jumps out and hits the Rakata in the head with a metal stick. The solider fell to the ground. Nicky says, "lets get to the control center." I say, "Come on." We open the blast door to enter the pyramid and there stands ten, no twenty Rakata men standing with blaster. I yell, "Run!" Nicky and I turn around and run towards Boz. "BOZ", I yell. Boz starts the tank and began to fire at the Rakata. The Rakata solider fire back with full force. Blasts everywhere, the fire is flaming through the ship. Nicky activates the lightsaber. Nicky ran and cut the Rakata. Boz yells, "Go you two." "No," I yell. Boz replies, "This is the only way have the attack." Nicky turns around and says, "We will come back."

The door to the command room is just straight ahead. Nicky and I run and run as fast as we can. The door opens. There were several stairs. I say, "Come on." Nicky says, "Stop and turn." We turn to the left and what we saw was a door. The door opens, there was a holo table, chairs, and General Deubeck. The General draws his postal out of his holster. I push him into the chair. Nicky says, "Send the mission into go." I press the button on the holo table. The cannons on the pyramid began to fire upon the other pyramids. Nicky says, "Nebu should be coming soon then." I say,

"The plan is now active." General Durbeck says with a evil grin, "You will never win." He begins to laugh over and over saying, "Ha ha ha ha ha." I say, "Why so funny, you lost." General Durbeck replies, "You see this I planned this to happen you Jedia will die."

CHAPTER 8

"You will never win you force welding scum." Durbeck said. I reply, "That's why you are our prisoner." Durbeck has a smirk on his face he begins to laugh, "Ha ha ha." Nicky says, "Look, Caleb." I look out the not small nor large window and see Nebu and his pilots attacking the Rakata fleet. Nicky yells, "Yeah Nebu!" Nebu and his starfighters are made of steel, glass, tech. The fighters didn't have any paint job nor did they have weapons. I say to Nicky, "Come on we have to help them get the guns on those starfighters." Nicky follows me. We left Durbeck behind.

The Rakata instantly launched their fighters. The Rakata fighter were a straight rectangular shaped fighter, painted red with three turbo lasers. Nicky says, "Caleb hand me a grenade." I hand Nicky a grenade. Nicky places it onto the wall and sets the timer for three minutes. Nicky says, "I suggest you run to hanger two." I answer, "Whatever you say." We run and run. On the left was the hanger two entry doors. I see ten starfighter come in to the pyramid ship. The jedi pilots jump out of their fighters. I soon see Nebu. "Nebu," I yell. Nebu replies, "We need to load up the guns and bombs." Nicky says, "Do you mind hurrying we only have two minutes until half of this ship comes down." Nebu yells, "Everyone hurry." I say, "Lets help." Soon as we know it some Rakata soldiers and General Durbeck pound out on the door. I say, "Go everyone start our attack run." Nicky and I activated our light sabers. The rakata soldier came into the docking bay two with Gerneal Durbck. Nicky says, "Get down." An explosion went off. Blast, boom we heard. The explosion killed three of the Rakata soldiers. We charged at the Rakata soldiers and we sliced and diced the Rakata. General Durbeck held a heavy blaster. Durbeck pressed a button on the blaster. The blaster soon fires at us, blasts everywhere. We reflect the blasts back at the Rakata soldiers. Our ships begin to fly out of the hanger. General durbeck runs after us and grabs Nebu by the leg. Nebu yells in fear, "Help get off me." General Durbeck throws Nebu back into his arms. Nebu says, "Just go save this world." Nicky begins to spark a tear. Nicky yells in rage, "I hate you Rakata scum, I will kill you." I pick Nicky up and drag her to the ship. I say, "Nicky we will get

him back I promise him back.” Nicky presses the start button and we begin to fly out of the pyramid. Nicky was balling. I say, “Its ok Nicky we will get him back I promise.” Nicky hugs me and says, “We will get him back and get rid of the Infinite empire.”

CHAPTER 9

All ten of us are flying north bound heading for the Rakata war ship. I open a com link. I press the button, I say, "All pilots report in." "This is pilot 1-10 reporting in. I respond, "All pilots be ready to launch the bombs on the pyramid." The pilots report back in and say, "Copy that Caleb."

Dead ahead was the Rakata warship, I was making lead. The Rakata launched their fighters. Nicky says, "Caleb watch out." I say, "I see them." The Rakata fighters begin to open fire. Blast and fire came upon our fighters. The Rakata fighters hit our men. One of our fighters were down. Nicky goes on the com. Nicky says, "Everyone continue our attack and remain to fire on those Rakata fighters. Our fighters split into 2 groups. One of our groups attacked the pyramid and the other protected us from the Rakata fighters.

I begin to fire from the cockpit of my starfighter onto the pyramid warship. Fire after fire and shot after shot the Rakata warship began to fall from the sky. All the pilots reported in on com and said, "Wow that warship is falling from the sky." We saw the smoke and fire from the sky burning. The Rakata warship has been taking out. I say, "All pilots make your way back to the temple." The pilots respond, "Were making our way back home." All our fighters made our back through the forest and near the coast. There was our home, our temple.

We landed the fighters on the landing pad. Klank the fighters made the noise. Nicky and I stepped out of the fighters. Nicky said, "I need to talk to everyone in the command room as soon as possible Caleb." I answer, "I will inform everyone, you can prepare everything." Nick says, "Thank you Caleb." I walk off and so does Nicky. The pilots walk towards me and say, "What is that all about?" I answer, "Nicky would like to speak to all of us in the command room as soon as possible." The pilots nod their heads. One of the pilots named Kai came up to me. Kai said, "We did good today destroying that Rakata warship." I say, "Thanks."

CHAPTER 10

We walk into the command room. Nicky says, "Thanks everyone for coming." Zek said, "Where is Kelly and Boz?" I reply, "They didn't make it." Everyone put their heads down in disappointment. Nicky says, "The Rakata have Nebu in their clutches." I say, "We need a plan to rescue him from the Rakata." Zander stands up and says, "May I have a suggestion." I say, "Yeah anything." Zander replies, "I say we steel a fighter and sneak a team on their ship and kill General Durbeck." Nicky says, "No, I'm sorry but that plan didn't work last time. "We need a sneakier plan." Said a woman. Caleb says, "How about instead of stealth we go full force." Nicky says, "We need more ships, we're going for an assault one last time against this empire."
